Subject: Microsoft Anti-Settlement

This is not punishment for breaking a law it is a reward. This "settlement" is a terrible, terrible dis-service to the American people. This settlement allows microsoft to further their monopolistic ways in a most insidious way by allowing them greater access to our most valuable assets, our children.

Further, it shows our children that breaking laws will be rewarded, rather than punished, by our highest courts. How can this be justice? How will our children be able to determine right from wrong when the wrong-doers are rewarded and not truly punished?

This is one of the worlds greatest travesties of justice of all times! Please there must be some way to control this great corporation that will show them that they too are subject to the rules and regulations of our great country.
